Owner

Florida Atlantic University

FAU Higher Education Complex Downtown Campus Solar Installation Fort Lauderdale, Florida

Description of Project:

In 2008 Hypower Inc. installed the first photovoltaic array for FAU at their downtown fort Lauderdale higher education complex. Since then Hypower has continued to work with FAU installing arrays at the new college of engineering building in Boca Raton. The system consists of 240 Solar PV Panels as well as a flat panel display and a "real time" monitoring system in the building to allow users to see the energy produced. The panel is designed to produce 51.571,000 kW/h of energy.

Role: As Sub Contractor, **Hypower Renewable Energy**

Division was **solely** responsible for:

- Permitting
- System Design
- Interconnection
- System Integration
- Panel Location
- Electrical Installation

Date of Completion:

- 2008

Project Details

- Size – 32,640 W
