

Project Profile

Fort Knox Knoxville, KY

Hypower designed and installed a 100kW photovoltaic array at the Fort Knox military installation in Kentucky. Hypower's experience with Federal work and in Solar integration led to an install that was completed in one month, on budget and 2 weeks early.

Description of Project:

- 100kW building integrated PV array

Our Role:

- Design Build

Major Suppliers

- Uni-Solar
- PV Powered

Date Completed

- 2009
