## VA Outpatient Clinic Solar PV System Mare Island, California

### Description of Project

Hypower has recently been awarded the contract for the design/build, installation and maintenance of a Solar PV System for the VA Outpatient Clinic in Mare Island, California. The design provides maximum energy production and best return on investment for the grid tied, roof mounted Solar PV System. The 109 kW system uses crystalline silicon panel technology with a ballasted roof mounting system requiring no roof penetrations. The project scope includes procurement, permitting, installation and maintenance.

**Role: PRIME Contractor**
