

Underground Electrical Transmission and Distribution  
**POWER INFRASTRUCTURE  
SERVICES**  
Overview

Turnkey Support to Electric Utility  
Clients Nationwide Since 1991

# HYPOWER POWER INFRASTRUCTURE SERVICES

As one of the Southeast's top commercial electrical and utility contractors, Hypower operates through several divisions specializing in heavy civil electrical infrastructure, electrical building construction, outside plant power and communications projects, airfield lighting, and ground-mount and floating solar farms nationwide. The company also specializes in 24/7 commercial and industrial electrical service and special projects in Florida. Founded in 1991 and headquartered in Fort Lauderdale, Florida, Hypower employs over 700 people and has successfully completed over 1,500 projects valued at over \$1.5 billion. Licensed to operate in more than 30 states, Hypower consistently ranks at the top of national leaderboards for its exemplary safety and innovation record within the construction market.

Widely recognized for its industry excellence, Hypower is currently ranked as a TOP 20 Electrical Contractor in the nation by Associated Builders and Contractors (ABC).

Hypower's Power Infrastructure Services constructs efficient and reliable electrical underground transmission and distribution systems. Hypower provides design-assist and construction support to electric utility clients nationwide on power infrastructure initiatives. Hypower is exceptionally qualified to deliver turn-key power solutions and has completed installations ranging from 4 kV to 500 kV.

## Construction Services

- Trench Excavation
- Conduit/Cable Plowing
- Directional Drilling
- Jack and Bores
- Handhole/Pullbox Placement
- Manhole Placement
- Cable Placement – Pull or Pneumatic Method
- Ductbank Relocation Services
- Ladder Rack Installation
- Auxiliary Frame Installation
- Core Drilling
- Fire Stop Construction
- Medium Voltage Wire Placement
- Full Overhead to Underground Power Conversion
- Switch, Transformer and Junction Box Installations
- Switch Gear
- Duct Bank Infrastructure Installation
- 4kV to 500 kV

## Affiliations

EC License - 30+ states  
GC License - 15+ states

## The Benefit of Hypower

- Local Knowledge - Founded and based in Fort Lauderdale since 1991
- Experienced personnel & production - Over 100 licensed electricians
- Over 1,500 completed projects with a total value of over \$1.4 billion
- Best in class safety record
- VDC/BIM capabilities – In-house design and coordination
- Prefab experience
- Ranked by ENR magazine- Top 20 Electrical and Utility Contracting Company in the Southeast
- Purchasing power
- Community involvement
- Culture of relationship

### 176-mile 138 KV North Florida Resiliency Connection (NFRC)

#### Various Locations in North Florida

This project included furnishing and installing four complete duct system by open trench for a 161 kV cross-linked polyethylene (XLPE) cable system. The duct system consisted of a concrete encased duct banks and a horizontal directional drill (HDD) duct system where the Contractor was responsible for the final designs and engineering of the HDD section of the project.

### LCEC/Cape Coral Cape Coral, Florida

Hypower installed 4500 LF of concrete encased duct-bank through the Future City Center Improvement area of Cape Coral, Florida as part of an underground design-build project.
